MILITARY LAW REVIEW

EDITORIAL POLICY: The *Military Law Review* provides a forum for those interested in military law to share the product of their experience and research. Articles should be of direct concern and import in this area of scholarship, and preference will be given to those articles having lasting value as reference material for the military lawyer.

The *Military Law Review* does not purport to promulgate Department of the Army policy or to be in any sense directory. The opinions reflected in each article are those of the author and do not necessarily reflect the views of The Judge Advocate General or any governmental agency. Masculine pronouns appearing in the pamphlet refer to both genders unless the context indicates another use.

EDITORIAL REVIEW: The Editorial Board of the *Military Law Review* consists of specified members of the staff and faculty of The Judge Advocate General's School. The Board will evaluate all material submitted for publication. In determining whether to publish an article, comment, note or book review, the Board will consider the item's substantive accuracy, comprehensiveness, organization, clarity, timeliness, originality and value to the military legal community. There is no minimum or maximum length requirement.

When an article is accepted for publication, a copy of the edited manuscript will be furnished to the author for prepublication approval; however, minor alterations may be made in subsequent

stages of the publication process without the approval of the author. Neither galley proofs nor page proofs are provided to authors. Reprints of published articles are not available.

VICENNIAL CUMULATIVE INDEX

In this volume are indexed all writings published in the Military Law Review from volume 1 (1958) through volume 80 (1978). Included are an author index, a subject index, a title index, and a book review index.

I. INTRODUCTION

This index includes all articles, comments, book reviews, and other writings published in the *Military Law Review* from its inception. The earliest writings indexed are found in Department of the Army Pamphlet No. 27-100-1, otherwise cited as 1 Mil. L. Rev. (1958). The most recent are in Department of the Army Pamphlet No. 27-100-80, or 80 Mil. L. Rev. (1978). Approximately 540 separate writings are indexed, ranging from full-length articles to biographical sketches, book notes, and symposium introductions of a page or less in length.

This index consists of an author index, a subject index, a title index, and a two-part book review index which lists books by author and title. Numerical references are to volume numbers and pages. Thus, 80/1 means page 1 of volume 80 of the *Military Law Review*, or 80 Mil. L. Rev. 1 (1978).

In 1965, Department of the Army Pamphlet No. 27-100-1-10, *Military Law Review-Selected Reprint*, was published. Volumes 1 through 10, published in 1958, 1959, and 1960, were out of print by 1965. Twenty of the fifty-one articles and comments appearing in those first ten volumes were reprinted in this special volume. In the present index, "SR," for *Selected Reprint*, is used in place of the volume number. Thus, the first article in the reprint volume is indexed as follows: 2/1; SR/1. This informs the reader that this article was first published at page 1 of volume 2, and was republished in the *Selected Reprint* volume at page 1.

In 1975, Department of the Army Pamphlet No. 27-100-Bicentennial Issue was published. This volume contained seventeen

articles reprinted from law reviews and journals other than the *Military Law Review*. These articles deal with military legal history and jurisprudence. In the present index, the original citations are included in the titles of the articles, and "BI," for *Bicentennial Issue*, is used in place of the volume number, thus: BI/15.

In the author index, each named author is listed separately. Thus, writings having more than one author are listed more than once in the author index. In the case of military authors, an effort has been made to include the highest rank held by the author up to the time of preparation of this index. Errors are inevitable with this type of effort, and the editor apologizes in advance and requests submission of corrections to be used in a future cumulative index. Authors of book reviews are listed in the author index rather than the book review index.

The subject index is the heart of the Vicennial Cumulative Index. This index is preceded by a list of the subject-matter headings used, numbering over 750. Headings are taken chiefly from previous *Military Law Review* indices. Other sources have been consulted but have been used only sparingly. These include Appendix 8-A, List of Topic Headings, in Department of the Army Pamphlet No. 27-21, *Military Administrative Law Handbook* (October 1973), with its occasional revisions; the cumulative index in Department of the Army Pamphlet No. 27-50-70, *The Army Lawyer* (October 1978); and the topical word index in Department of the Army Pamphlet No. 27-76-8, *Judge Advocate Legal Service Semi-Annual Index*, at 6 (11 Oct. 1976). Writings are indexed by title under appropriate subject-matter headings.

In the title index, titles of articles are listed in alphabetical order of the first major word of each title, disregarding *a*, *an* and *the*. Book reviews are listed similarly, by first major word of the title of the book, and also by first major word of the title of the review if different from the book title. The words "book review" preceding such entries are disregarded for purposes of alphabetization.

The book review index is in two parts. Part A, book authors, lists alphabetically all authors or editors of books, pamphlets, and periodicals reviewed. Writings having more than one author or editor are listed more than once.

Part B of the book review index is an alphabetical list of book titles and review titles. In most cases, reviews have no title other than the title of the book reviewed. In a few cases, reviewers have used a different title, and such writings are listed both by review title and book title.

Book titles and review titles appear in both the subject index and the title index. Reviewers are listed in the author index. Book authors and editors appear only in part A of the book review index.

Annual indices have been published approximately every four volumes throughout the history of the *Military Law Review*, either for a single year, or as part of occasional cumulative indices covering several years. The annual indices in volumes 4 and 8 were replaced by the cumulative index in volume 12. The annual indices in volumes 14 and 18 were replaced by the cumulative index in volume 22. These two cumulative indices and the annual indices for volumes 26, 30, 34, and 38 were all replaced by the cumulative index in volume 40. This index, covering most of the writings published in volumes 1 through 40, was the most comprehensive ever attempted prior to the present effort. A second cumulative index was published in volume 54, replacing the annual indices in volumes 42 (change 1), 46, and 50. A six-volume cumulative index appeared in volume 80, replacing the annual index at volume 78. The present Vicennial Cumulative Index replaces the cumulative indices at volumes 40, 54, and 80, and the annual indices at volumes 58, 62, 66, 70, and 74.
