Academics

Why Academics?

(Deputy Division Chaplain needed another OER bullet point, sorry)

1. **Self-Evaluation or Azimuth check, based on CTC reoccurring observed trends.** *(honest assessment of where you are today)*
2. **Testing RSO Conceptual Plans and Battle Drills **before** CTC rotation.** *(time to think/plan)*
3. **Refresh 10MD BDE 'Sustains and Improves' from previous CTC rotation.** *(move from crawl to walk; walk to run)*
4. **Provide an open and low-threat training IOT address RSO in a DATE Exercise.** *(ask the dumb question)*
5. **Provide an Accessible Resource for RSO Planning and Training**

Training Objective/Agenda

I. Establish or confirm a doctrinal base-line understanding of Religious Support Operations:

1. Religious Support Plan (RSP) or (TAB D)
2. Running Estimates
3. Reporting
4. Responsibilities

II. Strengthen the ability to build a Annual Training Plan for BDE UMTs that addresses tactical/operational METLs.

- 805D-56A-6304 Develop the Running Estimate For Religious Support 21NOV2016

Running Estimate: Defined, Purpose, Outcome

- A running estimate is the ***continuous assessment*** of the current situation used to determine if the *current operation* is proceeding according to the commander's intent and if planned *future operations* are supportable. (ADP 5-0, 1-54)
- Assessment . . . precedes and ***guides*** every operations process activity . . . Staffs use several tools to assess progress. Running estimates, the COP, and after action reviews. (FM 6-0, 3-54)
- This ***enables*** staffs to provide knowledge to commanders in the form of recommendations and help commanders ***build and maintain*** their situational understanding. (FM 6-0, 3-57)

What makes up a RE?

- Addresses all aspects of operations and contains both facts and assumptions (ATP 1-05.01, 2-18; FM 6-0, 8-5)
- Covers essential facts and assumptions, including a summary of the current situation by the mission variables, conclusions, and recommendations.
- Assessment of the current readiness of equipment and personnel
- How the factors considered in the running estimate affect the UMT's ability to accomplish the mission.
- Identifies functional area friendly and enemy strengths.

Sample Running Estimate Format (ATP 1-05.01)

This is what is in
a continuous
state of change

1. **SITUATION AND CONSIDERATIONS.**
 - a. **Area of Interest.** Identify and describe those factors of the area of interest that affect functional area considerations.
 - b. **Characteristics of the Area of Operations.**
 - (1) **Terrain.** State how terrain affects a functional area's capabilities.
 - (2) **Weather.** State how weather affects a functional area's capabilities.
 - (3) **Enemy Forces.** Describe enemy disposition, composition, strength, and systems within a functional area. Describe enemy capabilities and possible courses of action (COAs) and their effects on a functional area.
 - (4) **Friendly Forces.** List current functional area resources in terms of equipment, personnel, and systems. Identify additional resources available for the functional area located at higher, adjacent, or other units. List those capabilities from other military and civilian partners that may be available to provide support within the functional area. Compare requirements to current capabilities and suggest solutions for satisfying discrepancies.
 - (5) **Civilian Considerations.** Describe civil considerations that may affect the functional area, including possible support needed by civil authorities from the functional area as well as possible interference from civil aspects.
 - c. **Facts/Assumptions.** List all facts and assumptions that affect the functional area.
2. **MISSION.** Show the restated mission resulting from mission analysis.
3. **COURSES OF ACTION.**
 - a. List friendly COAs that were war-gamed.
 - b. List enemy actions or COAs that were templated that impact the functional area.
 - c. List the evaluation criteria identified during COA analysis. All staffs use the same criteria.
4. **ANALYSIS.** Analyze each COA using the evaluation criteria from COA analysis. Review enemy actions that impact the functional area as they relate to COAs. Identify issues, risks, and deficiencies these enemy actions may create with respect to the functional area.
5. **COMPARISON.** Compare COAs. Rank order COAs for each key consideration. Use a decision matrix to aid the comparison process.
6. **RECOMMENDATIONS AND CONCLUSIONS.**
 - a. Recommend the most supportable COAs from the perspective of the functional area.
 - b. Prioritize and list issues, deficiencies, and risks and make recommendations on how to mitigate them.

How does
this become
a fighting
product??

What are the important aspects of the RE??

- Current readiness of equipment and equipment
- How factors in RE impact mission accomplishment
- Varies in actual form from unit to unit based on how the commander prefers to receive information (ATP 1-05.01, A-4)
- Must answer the commander's "**SO WHAT**" question and forms a basis for reporting to CDM and higher UMTs.
- **Problem Statement:** How do we make a fighting product that captures relevant updated information?????

What do you need in your RE?

- Digital/ analog? How can information be communicated?
- CDR needs? Technical higher's needs?
 - Personnel
 - Equipment
 - Intelligence
 - Last 24/ next 24
- Simplicity vs. in-depth
- Means of communicating the information
 - NIPR or Secure?
 - Messaging, email, radio?

→ In two minutes what is important for the CDR, BDE CH or DIV CH to know?

→ How will you make this a useable fighting product?

Religious Affairs Specialist Competencies

These Competencies provide a clear and consistent way of conveying expectations of Religious Affairs Specialists.

- **Strengthen Spiritual Readiness**

Enhance the spiritual resilience of personnel by providing worship services and programs while providing moral and ethical training.

- **Integrate Religious Support into Operations**

Analyze and synchronize internal and external advisement to the Command and the Chaplain in the operational and home station environment.

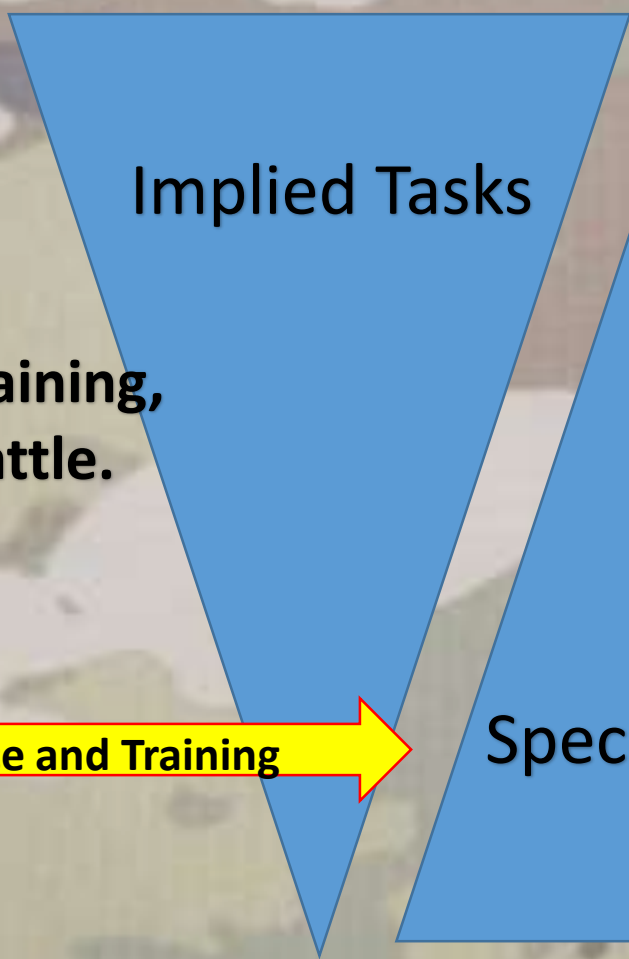

- **Manage Religious Support Resources**

Manage multi-purpose worship facilities, property accountability, equipment, personnel, supplies, appropriated funding and Chapel Tithes and Offerings Fund (CTOF) to enable the free exercise of religion.

GUIDANCE

1. FORSCOM and OCCH Give Annual Training Guidance for the FY
2. 10th Mountain Division Chaplain Section publishes Annual Training
3. Knowing and Engaging Commanders Dialogue to address Unit Objectives for the FY, Commander's Guidance

FAMILIARIZE YOURSELF WITH CURRENT TRENDS/UMTs

1. Utilizing the 10MD MPA FOLDER:
 1. Read through dozens of AARs
 2. Read through the CTC FY Battle-Focused Training Trends
2. CPX/FTX and other Exercises
 1. Assess your UMTs Capabilities EARLY.
 2. Ask your UMTs where they see Strengths and Weaknesses

What Trends We See at ALL CTCs...

Positive

- Battalion chaplain ministry to Soldiers
- Desire to be solid staff officers/NCOs

Negative

- Under utilize RSOI (Religious support sync meetings, mission analysis, PACE)
- Deploys without required resources (vehicle, computer)
- Low internal UMT cohesion between CH and RAS
- Adopting a “good enough” attitude/approach
- Low staff integration

NATIONAL TRAINING CENTER FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

1. UMTs develop their religious support plan consistent with COIN rather than DATE operations. Once UMTs develop a plan inconsistent with DATE, it is difficult for them to recover during their rotation.
2. BCT UMTs don't publish religious support plans that include synchronizing organic and non-organic UMTs. This gap causes UMTs to under utilize resources in religious support coverage throughout the rotation.

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

1. UMTs must use their home station training progression (CPXs, FTXs, EDREs, ect.) to synchronize their efforts with their staff counterparts and consistent with CDRs intent ahead of their NTC rotation.
2. UMTs must use the Leader Training Program (LTP) to plan for non-organic assets and publish an inclusive religious support plan. Between LTP and the NTC rotation, UMTs should send an RFI to their DIV during home station training to receive support for DIV organic battalions to serve as the non-organic forces to give BCTs the full effect of an NTC rotation and deployment experience.

NATIONAL TRAINING CENTER FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

- 3. Because the priority of religious support changes during each phase of decisive action, UMTs miss critical opportunities to provide adequate religious support to their units because they have an inaccurate picture the CDRs intent, assets, facts and assumptions, and a good COP.
- 4. UMTs do not have dedicated Mission Command Systems (JCR, FM Coms), nor are they trained on systems (CPOF, Upper TI) in order to communicate (using PACE plan) with other UMTs and units.

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- 3. UMTs should update their running estimate with a clear religious support common operating picture (COP) during LTP, home station training, during RSOI, and each phase of the DA operation at NTC. If UMTs are not making this a priority at home station, they will struggle at NTC during their rotation.
- 4. UMTs should be assertive while at home stations and obtain dedicated MC systems to help them communicate when they arrive at NTC during the initial COMMEX.

NATIONAL TRAINING CENTER FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

- 5. When UMTs don't attend rehearsals they are unable to synchronize their efforts with UMTs or unit.
- 6. When the BCTs decide to intentionally leave UMT Members at home station to provide coverage for the division/garrison it creates a gap in unit and personnel coverage. Because Decisive Action is fast paced (BNs jump every 24 hours and BDEs jump every 48 hours) the UMT coverage plan of the past is not sufficient to provide adequate support to units and personnel.

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- 5. UMTs must attend all Sustainment rehearsals and CARs at home station and at NTC.
- 6. We recommend BDEs and DIVs view the CTC rotation as a mini-deployment and ensure every unit has a designated UMT (within reason). BDE UMTs should submit an RFI to DIV requesting personnel support when vacancies are inevitable.

NATIONAL TRAINING CENTER FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

- 7. UMTs inaccurately refer to Internal/External Advisement and SLEs synonymously and believe there is no need to conduct external advisement because they won't be required to do SLEs while deployed.

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- 7. DIV CH Sections should train the UMTs on the role of the UMT in internal and external advisement. As a way to assist UMTs with this understanding, Supervisors should require a solid RIA Brief to help UMTs rehearse their responsibility to advise their CDRs.

JRTC FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

- 1. UCT UMTs often fail to Operationalize Religious Support.

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- 1. Train on operational phases and RS implications of each phase; operate with CUOPS/FUOPS UMT framework; BCT CH CGSC Grad; BCT NCO Battle Staff Grad.
- 1. Home Station Focus: Mission Command and MDMP training with inputs/outputs and Tab-D development, Offensive/Defensive operations.

JRTC FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

- 2. BN UMTs located with Combat Trains Command Post (CTCP)/Field Trains Command Post (FTCP).

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- 2. Define priority of effort during each operational phase; operationalized guidance from BCT UMT; deploy with MTOE equipment IOT enable BFC.
- 2. Home Station Focus: Ensure MTOE equipment available; Train on systems and RSP by phase (ATP 1-05.01).

JRTC FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

- 3. Deploying without Equipment (MTOE).

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- 3. Fight for the right allocation of equipment based on the MTOE; have a plan prior to arriving at JRTC; consider 2nd & 3rd order of effects of missing equipment; Ecclesiastical supply layout.
- 3. Home Station Focus: Division ensures Soldier skills training for all UMTs; training on FM 3-0 & ATP 1-05.01; understanding the capabilities of BCT/BN.

JRTC FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

- 4. Lack of Basic Soldier Skills.

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- 4. Review Warrior task/battle drills; Intentionally integrate training with the unit; understand METT-TC and RS implications; review principles of sustainment and application to RS (ADRP 4-0).
- 4. Home Station Focus: Virtual Battle Space simulator (VBS3); STX/FTX supervision; Implementation of FORSCOM Battle Focused Training; Monitor and assess BCT/BN UMT Warrior task/Battle drills.

JMRC FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

1. RS planning remains stability operations focused; readily available time/resources/commo/freedom of maneuver

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- Division CH Section quarterly azimuth check for BDE UMTs decisive action training plan
- BDE UMTs receive academic training focused on decisive action from OC/Ts 270 days prior to rotation
- OC/Ts will review fighting products and provide feedback during academics training IOT ensure decisive action RS

JMRC FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

- 2. UMT training during exercises are executed more notionally than realistically lacking decisive action complexities; interruption of PACE plan, updating fighting products, time and maneuver restraints, hasty RS execution

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- CTC pushes decisive action complexity inject considerations and Metrics to RTUs roughly 360 days prior to rotation for inclusion in the BDE yearly training plan
- BDE UMTs inject complexities for BN UMTs for each CPX/FTX to increase comfort with adjusting RS plan
- BDE/BN S3 informed on UMT metrics based rotational evaluations providing a baseline for RTU success

JMRC FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

- 3. RTUs have not synchronized efforts or visualized potential gaps in their RS plan by phase through conducting a RS RXL prior to rotation

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- BDE UMTs plan and conduct a Religious Support Operations RXL to mitigate and fill gaps prior to rotation
- BN UMTs brief their specific RS plan unique to their BN's mission set
- BN UMTs demonstrate a shared understanding of available RS assets in their AO

JMRC FY20-21

WHAT RS GAPS EXIST (OBSERVED IN 3> ROTATIONS)?

- 4. DATE and the JMRC OE (limited size, terrain, and weather) has revealed a lack of basic Soldier survivability skills

WHAT ACTIONS DO YOU RECOMMEND TO MITIGATE THE RS GAP(S)?

- Identify Soldier skill coaching focuses at home station CPX/FTX/WFXs
- Develop battle focused training plans incorporating identified coaching focuses from home station training exercises
