

Notice Regarding JAOAC Ph. I Enrollment and Launch for Feb 2022

The Ph. I JAOAC course normally opens each year for new enrollments and course launch around 1 February.

HOWEVER, as of late Dec 2021, ARCYBER has shut down many Army systems for vulnerability checks. This includes the Army's ELLC Blackboard systems, which includes JAGU, and relates to a vulnerability that you might have heard about in the news affecting Amazon, Google, and others. The hope is that systems will be resolved in the coming weeks, but there is a chance that JAOAC Ph. I will be delayed past the normal start date of 1 February.

Check back on JAGU at <https://jagu.army.mil> in late January/early Feb 2022 to see if we are back up. If so, follow the instructions below for enrollment.

Thank you for your patience!!
